

UltraMatic 425

The latest generation in banding !

■ FEATURES

This device combines the latest banding technology based on its technique and product safety.

The exchange of film and paper is fast and easy due to the half automatic feed in system. There is no need of machine alteration.

The table banding machines - UltraMatic 420 - is unique in its class. The newly developed quick sealing technology makes it possible to use three different kinds of banding material.

- ***new* counter**
- Paper brown
- Paper white
- Film transparent

■ TECHNICAL DATA

Frame width	425 mm
Frame height	200 mm
Feed in system	Half automatic
Band width	29 mm
Tension	Variable
Voltage	230V / 50 Hz - 200 W
Speed	~ 32 cycles

■ SPECIFICATIONS

Machine height	570 mm
Width	490 mm
Depth	346 mm
Weight	33 kgs

Banding table
variable in height

Banding - In Time !

- Quick product cycles
- Optimal band tension
- Economic banding material

The UltraMatic 425 with side roll dispenser is technically identical to our UltraMatic 425. The big advantage of this machine is that you can use banding material with a length up to 500 meters. With a long roll dispenser you can even use rolls up to 1000 meters. So the machine moves into the area of floor-mounted appliances but with a much more interesting price.

■ BANDING MATERIAL

Type	Width	Length
Film transparent	29 mm	250/500/1000 m
Paper brown	29 mm	180/500/1000 m
Paper white	29 mm	180/500/1000 m

- Advantages**
- Latest Banding technology
 - Simple in Usage
 - Stable construction
 - Wear and tear free frame
 - AC-Motors with direct drive
 - Operation through footbar switch or photo lense eye

Additional Equipment

The product stopper made out of stainless steel can be adjusted vertically and horizontally via handscrews.

You can use rolls with up to 500 meters in our side roll dispenser.

The wagon (400x800 mm) is variable in height and built out of burnished, stainless steel.
